12th November 2009

Dear Mr Savage,

As you probably know, around one third of the food we eat results from pollination by bees. However, in the UK nearly one fifth of honeybee hives were lost in the winter of 2008/2009. The honeybee is under threat, mass die-offs are occurring and no-one knows why.....

The Vanishing of the Bees film, narrated by actress Emilia Fox, explores the collapse of the Earth's pollinators through the eyes of those whose livelihoods depend on them.

The Buccleuch Centre has been asked to screen this film in our new cinema and while we would very much like to do so, we need a minimum of 50 people to pre-buy tickets to make the evening viable. We are therefore inviting you to participate in this event, along with other individuals and organisations with similar interests. The proposed screening date for this film is Tuesday, 1st December, 7.30pm at a cost of £4 per head.

If you are interested in attending this special screening, please contact Lucy Read at the Buccleuch Centre on 013873 81196 or by e-mail: cinema@buccleuchcentre.com to book your ticket. If we have not sold the requisite 50 tickets by Wednesday, 25th November all tickets sold will be refunded in full.

Yours sincerely
for THE BUCCLEUCH CENTRE

Hilary Jack
General Manager
